

Poole Radio Society Photograph policy

To help promote our hobby to a younger generation, we are looking for photographs of young people taking part in it. In doing this good practice requires that we obtain signed consent from parents/guardians for all photos, no matter who took them, showing anyone under the age of 18.

Photographs will only be used for:

- Preparation of display material for events such as this.
- Inclusion in our newsletter, promotional material or website.
- Inclusion in RadCom (from the Radio Society of Great Britain) and Practical Wireless magazines, and the local press.
- They may also be made available to those hosting exhibition stations if their consent documents have been signed.

Photographs by parents/guardians, with the consent documents downloadable from www.g4prs.org.uk, are very welcome. Send to: photo@g4prs.org.uk

Any photograph not suited to the above purposes will be deleted within seven days of taking or receiving.

To protect anonymity consent will not be stored electronically. Children's names will not be stored. If an editor requires a name for a caption it will be fictional.

If requested we will send, or endeavour to have sent, to parent/guardian only, a copy of any relevant page of newsletter or magazine. For this the consent document must carry adequate information to identify the photograph. We reserve the right to refuse a copy if we are uncertain.
